

# CLEANMAX BIO 95

Product code: 262100601

## Highly effective biodegradable cleaner

This product is biodegradable and food grade liquid degreaser/ cleaner, used for heavily contaminated surfaces, pumps, pipes and floors. The product is very effective against vegetable or synthetic oil and can be used in high-pressure cleaners, inventing devices or by hand. It works efficiently both with cold and hot water.

### Applications

**High pressure:** Make a solution of 5-10% v/v. Measure the tap in such a way that the method is optimal: +/- 0.5% at the spray head and +/- 50°C.

**Heavily soiled surfaces:** make a solution of 10% to 20% in water according to the degree of pollution of the surface. Spray and rinse with high pressure.

**Slightly soiled surfaces:** make a solution of 5% to 10% v/v in water depending on the degree of pollution of the surface. Working method as above.

**Manual:** make a solution of 10% to 20% depending on the degree of pollution of the surface. Clean surface thoroughly with a sponge or brush. Rinse well.  
Product can be used in detergent tanks (fire brigade). Product does not affect materials.  
Concentration for pumps set to 3 or 6%.

### Benefits & Advantages

- Highly effective in use
- Can be diluted
- Non-toxic
- Biodegradable
- User friendly
- Non-flammable

### Typical Performance Data

Typical	Value
pH @ 10%	10.3
Flash point	None
Biodegradability	>95%
Toxicity	None
