

CUT 61 A

Product code: 265402201

Lapping and honing neat cutting oil

This product is a low viscosity oil specially formulated for finishing operations with a low tendency to oil mist.

Applications

It is designed for lapping, honing and grinding operations. It is also suitable for sharpening of disks and tools. It is suitable for steel, iron and cast iron.

Benefits & Advantages

- Good flushing, cooling and lubricating properties
- Improved tool life and surface finish
- High performance
- Less consumption
- Improved productivity

Typical Performance Data

Typical	Value
Colour	Yellowish
Viscosity @ 40 °C, cSt	10
Flash point °C	>170
Pour point, °C	<-7
Density @ 20°C, g/ml	0.86
Type	Active
