

FDX 1030 CU

Product code: 265404201

Tube drawing oil

This product is a neat oil specially formulated for tube drawing and forming applications of copper, bronze and aluminium. Product has very good lubricity and does not leave residues after annealing treatments.

It offers great friction reducing characteristics and exceptional bright annealing properties. Using selected additives and boundary lubricant achieves an excellent tube surface finish, and longer life of dies.

Benefits & Advantages

- Avoids contact between piece and die
- Low Odour
- No residues left
- Good Lubricity
- Low Oil consumption
- Excellent rolling ability
- Good reduction capability
- Excellent surface finish and brightness

Typical Performance Data

Typical	Value
Appearance	Oily yellowish liquid
Density @ 20 °C, g/cm ³	0.89
Viscosity @ 40 °C, cSt	31
Flash point, °C	>190
Pour point, °C	<-28
Copper corrosion	1a
