

FDX 240 A

Product code: 265405301

Stamping oil

This product is an EP fortified fluid, specially formulated for aluminium stamping and drawing operations. The synergistic combination of EP additives, lubricity and polar compounds make it especially suitable for obtaining high efficiency and ultimate performance. The product does not contain chlorine compounds.

Benefits & Advantages

- Easy to apply
- Less defect in pieces
- Reduced wear in tools
- High film strength
- Better piece finishing

Typical Performance Data

Typical	Value
Appearance	Oily liquid
Colour	Amber
Density @ 20 °C, gr/ml	0.90
Viscosity @ 40 °C, cSt	44-52
Flash point, °C	180
Pour point, °C	-5
Corrosion aluminium	Nil
Corrosion steel	Nil

All performance data on this Technical Data Sheet are indicative only and can vary during production.
