

# FOODMAX BASIC 200

Product code: 264300201

## Lubricating white paraffin oil

Paraffin food grade oil for general lubrication purposes and forming processes in the beverage aluminium can production industry. Can be used in the authorized industrial operations wherever there is the possibility of food contact. Foodmax Basic 200 can be used as a general lubricant in various applications in the food processing industry. The product gives excellent results as general lubricant in the textile, knitwear, food and beverage industry. It generally can be used whenever very high cleanliness levels are requested or in environments that require regular cleaning with water. Foodmax Basic 200 is NSF H-1 approved.

### Applications

- Forming fluid for heavy duty aluminium can forming.
- Cosmetics industry
- Textile industry
- Food and beverage industry
- Breweries and bottlers
- Animal feed factories

### Properties

- Colourless, odourless and tasteless white paraffin oil with extra AW & EP properties
- Good lubricating capacity
- Good adherence
- Provides a clean non staining and non-contaminating lubrication
- H-1 approved

### Typical Performance Data

Typical	Value
Colour, saybolt	+30
Appearance	Bright and clear, Odourless
Density @ 25 °C, g/ml	0.87
Viscosity @ 40 °C, cSt	200
Flash point, °C	>220
Pour point, °C	-10
NSF approval	166702
Halal	yes
Kosher	yes
USP/BP	Pass
FDA 21 CFR 172.878	Pass
FDA 21 CFR 178.3620A	Pass
