

SPINDLEMAX 4

Product code: 267500201

Spindle oil

This product is a light refined mineral oil intended to lubricate high speed machine elements operating under medium load and temperature conditions. These fluids are ashless and contain rust and corrosion inhibitors providing excellent oxidation resistance and thermal stability at elevated temperatures.

These fluids are particularly recommended to lubricate spindles, conveyor bearings, rolling bearings and automatic clutches bearings. It can be applied by dipping, dripping, spraying or centralized systems. It meets ISO-L-FC under the standard ISO 6743/2.

Benefits & Advantages

- Zinc free (ashless technology)
- Excellent protection against rust and corrosion
- Reducing wear
- Increased heat and machine management
- Longer spindle bearing life
- Increased productivity

Typical Performance Data

Typical	Value
Appearance	Oily liquid
Colour	Yellow
Viscosity @ 40 °C, cSt	4.6
Grade, ISO 3448	5
Flash point, °C	>120
Pour point, °C	-15

All performance data on this Technical Data Sheet are indicative only and can vary during production.
